November 19, 2020

## **Fulton County Schools Follow Executive Order**

On November 18, 2020, Governor Andy Beshear issued an executive order. Part of that order addresses public and private schools. As of November 23rd, all public and private schools will cease in-person instruction and transition to remote or virtual instruction. Elementary schools may return to in-person school beginning December 7, 2020, as long as the elementary school remains out of the red zone. This includes grades K-5, so students in the 5th grade may return with the K-4 students on December 7th. Preschool will follow the elementary schedule and return on December 7<sup>th</sup>. NTI instruction will continue for the elementary school and 5th grade during the week of November 30-December 4th with a return to school scheduled for December 7, 2020. Further instructions will be provided by the Fulton County Elementary Principal Sondra Gibbs and Fulton County Middle School Principal Kim Dublin.

Grades 6-12 will be in virtual instruction with small group targeted instruction until January 4th. Schools may provide small group in-school targeted services, as provided by KDE guidance. Principals Kim Dublin and Ellen Murphy will provide instructions on how the students in grades 6-12 will receive instruction and targeted services beginning on November 30, 2020.

Athletics will also follow the Governor's executive order with practice beginning December 14, 2020. Fulton County School's Athletic Director Julie Jackson will provide further KHSAA guidance at a later date.
